## PSR105-600-70 Softstarter - 105 A - 208 ... 600 V AC

General Information	
Global Commercial Alias	PSR105-600-70
Extended Product Type	PSR105-600-70
Product ID	1SFA896115R7000
ABB Type Designation	PSR105-600-70
EAN	7320500362655
Catalog Description	PSR105-600-70 Softstarter - 105 A - 208 600 V AC
Long Description	The softstarter PSR105-600-70 has a rated maximum operational current of 105 A with an operating voltage span from 208600 V AC. The rated control voltage is between 100240 V AC at 50/60 Hz. PSR features a two-phase control soft start and stop through a voltage ramp. It has built-in bypass for easy installation and energy saving. A RUN and a TOR signal is available from a relay output in NO (normally open state). The start/stop ramp and time is easy to set by three potentiometers on the front. PSR is often used in combination with a manual motor starter (MMS) from ABB, so mechanical connection kits are available. Another popular option is Fieldbus communication, which can be enabled by an external adaptor and a Fieldbus plug. The PSR range is our most compact softstarters with basic functionality and values. They are suitable for small three-phase motors with nominal currents from 3105 A and can manage up to 100 starts per hour. Common applications are, for example, pumps, fans, compressors, and conveyors.
